KMDA-7611-T001: 238*169*61.8 mm (Including installation accessories)

(W*D*H)

KMDA-7611-S001: 238*169*75.6 mm (Including installation accessories)

KMDA-7611

Product Features

- 1 Supports high-frequency memory
- 2 High-speed Isolated DIO
- 3 Support multiple CAN protocols
- 4 Multiple network functions
- 5 Rich IO interfaces
- 6 IO interface anti-falling design
- 7 Installation diversity

★ Supports high-frequency memory

- Dual channel memory DDR5 SODIMM, frequency 4800MHz
- Maximum memory capacity 96GB
- High compatibility supports most mainstream memory manufacturers on the market

★ High-speed Isolated DIO

- 8-bit isolated DIO, 4-bit DI is 2.5KV photoelectric isolation, supports PNP and NPN mode selection; 4-bit DO is 2.5KV optical isolation Darlington output, with built-in matching resistor, which can be selected based on different drive currents.
- The pulse period reaches 2ms/pulse wave
- Capable of directly controlling brake devices such as signal lights, limit switches, and high-speed switch valves
- It can also operate the transfer device on the forklift, eliminating the need for a micro PLC on the forklift.

★ Support multiple CAN protocols

- Dual Mini PCIe interfaces, which can support up to 4 channels of CAN;
- Support CAN 2.0B, CAN OPEN, Socket CAN and other protocols, and is seamlessly connected to the forklift chassis;

★ Multiple network functions

2 Full-length Mini-PCle, with PCIeX1 and USB2.0 signals, supporting WiFi/Bluetooth/Ethernet modules
1 M.2 3052/3042 B-Key, with SIM card slot, with PCIeX1 and USB2.0 signals, supporting 5G NR modules
2 or 4 adaptive Gigabit Ethernet ports.

★ Rich IO interfaces

Expandable dual
Ethernet ports/CAN

4*USB3.2: Barcode
scanner, touchscreen,
camera, keyboard,
and mouse

8bit isolated DIO

Expandable CAN

6*COM: MCU board, access
control, face recognition system

★ IO interface anti-falling design

JHCTECH Other Logistics Product Overview

KMDA-3302

High energy efficiency and small size AGV/AMR controller

Product Specifications

KMDA-3302

- Intel® Tiger lake U Soc CPU
- SGCC box design, 4-wire speed fan cooling
- 1*DDR4 3200MHz SODIMM, up to 32GB
- 1*HDMI 4K display output
- 2*I210AT Gigabit network port, 2*USB3.2, 2*USB2.0
- 8bit DIO, 1*RS232/422/485, 1*RS232
- 1*M.2 2230 E-Key, support Wifi/BT function extension
- A 1*M.2 B-Key with a SIM card slot supports 5G NR wireless modules
- 1*Mini PCIe supports functions such as CAN, and can be replaced with mSATA
- 1*Full Size mSATA for storage
- DC 9~36V wide voltage power supply, with reverse connection, overcurrent, overvoltage protection
- Standard horizontal tabletop mount, single DIN-RAIL rail mount optional

CNTI-R351

Edge Computing Magic Box
Based on Ruixin Micro RK3588 platform

Product Specifications

- Rockchip RK3588 CPU, 4-core Cortex-A76 and 4-core Cortex-A55, 2.4GHz main frequency
- Onboard 4GB memory
- GPU only 1*HDMI
- 4*LAN, 2*USB3.0, 2*USB2.0, 2*COM, 1*8bit DIO, 2* isolation CAN2.0, 1*Audio out
- 1*Full size Mini PCIe with SIM card slot and 4G LTE support
- Optional onboard Gigabit WiFi6/ Bluetooth 5.0
- Onboard 32GB eMMC and 1*M.2 2242 M-Key dual storage
- DC 9-36V wide voltage power supply, with reverse connection, overcurrent, overvoltage protection
- Aluminum rectangular profile housing, no fan cooling design
- Standard horizontal tabletop mount with DIN-RAIL rail and wall mount options

Introduction of JHCTECH's New Products

Large-Sized Expandable Industrial Panel PC --- ALAD-K2350T(P)

Reese Li, Customer Solution Manager, Shenzhen Office

The background image shows a modern industrial factory environment. Several blue robotic arms are visible, working on a production line. One robotic arm in the foreground is holding a large, rectangular panel PC. The screen of the PC displays a live feed of the factory floor, showing other robotic arms and machinery. The scene is lit with a cool blue light, emphasizing the industrial and technological nature of the setting.

Naming Rules for the ALAD Series Products

ABC(D)-X xx x x- T/T(P)

Serial Number: The priority is highest for values ranging from 0 to 9.0.

CPU Performance Levels:

0: Lowest Performance, 1 (6): Low Performance, 2 (7) and 3 (8): Medium Performance, 4 (9) and 5: High Performance

LCD Size: 08: 8/8.4 inches, 10: 10.1/10.4 inches, 12: 12.1 inches, 15: 15/15.6 inches, 17: 17 inches, 18: 18.5 inches, 19: 19 inches, 21: 21.5 inches, 23: 23.8 inches

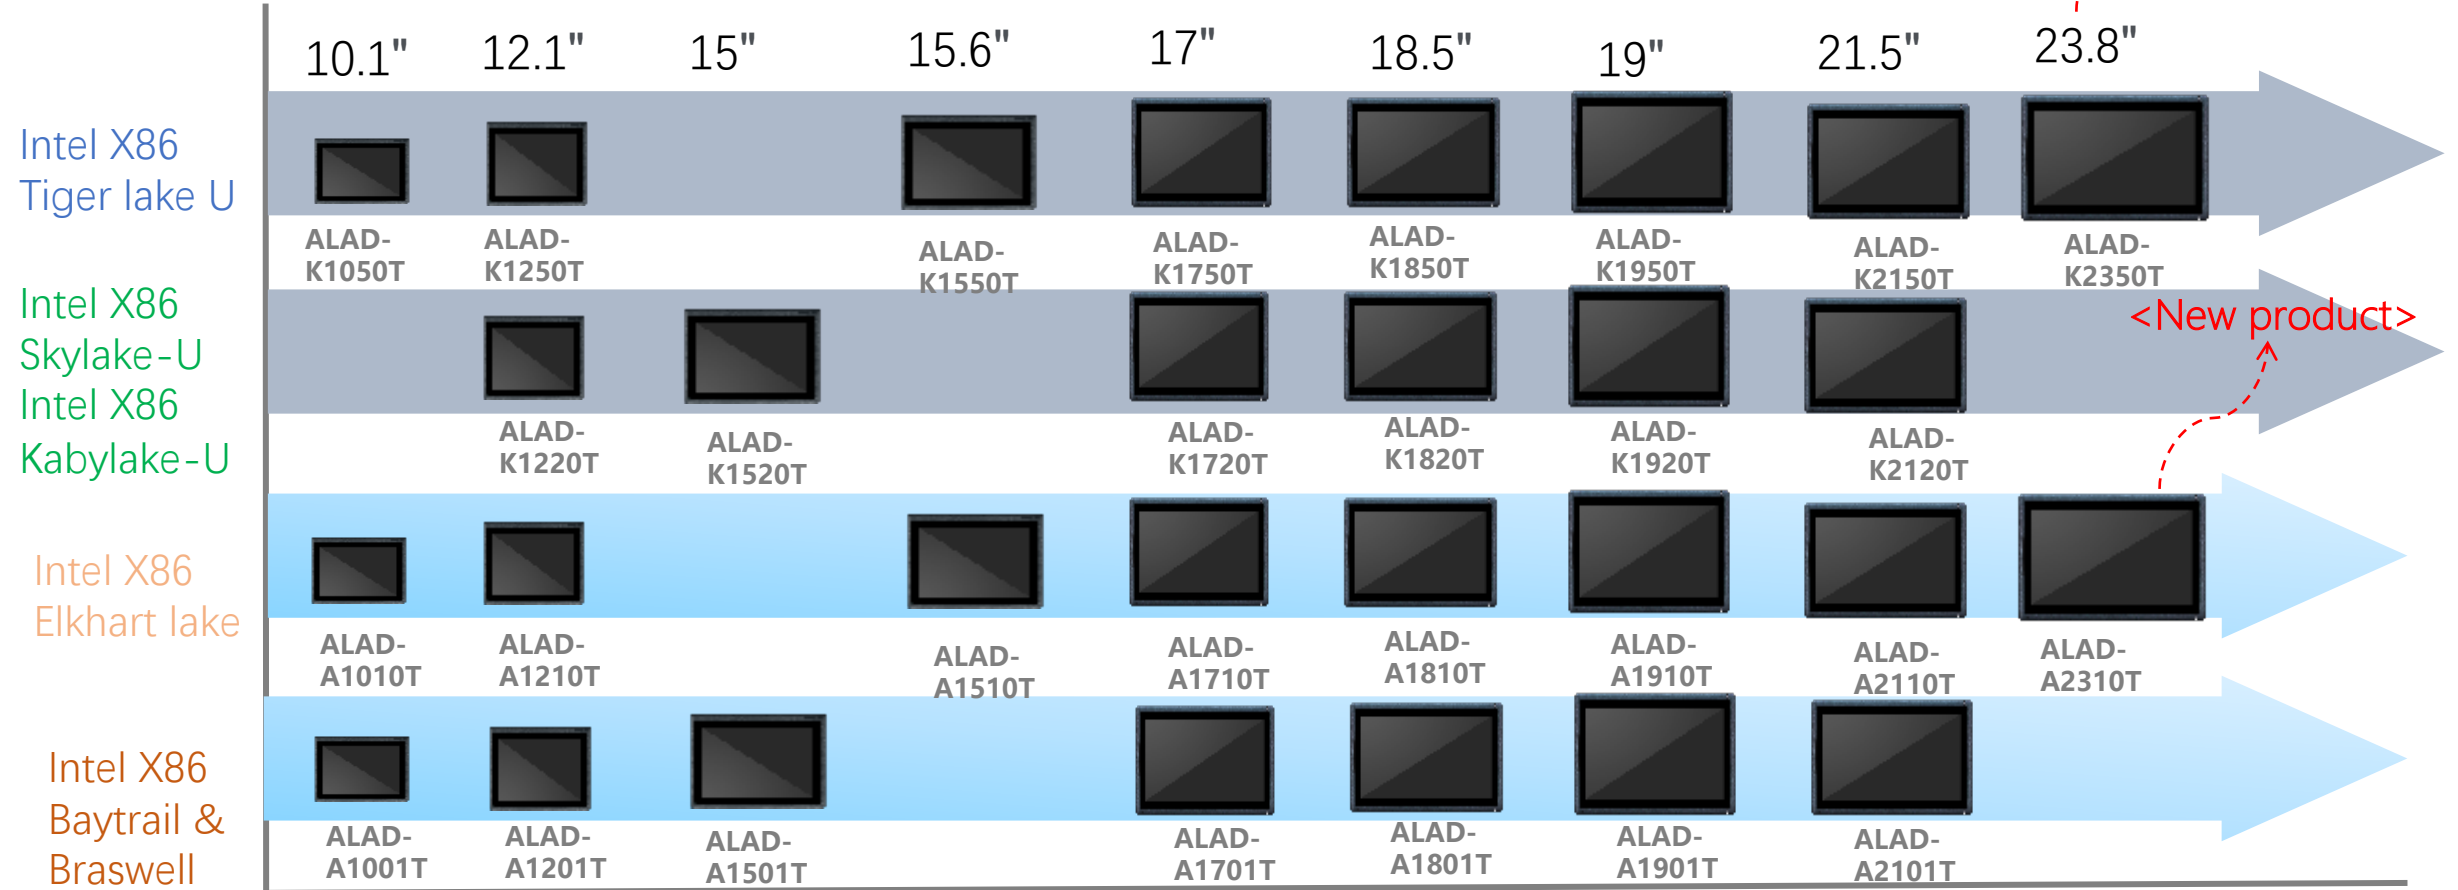

1. Scene Characteristics: H: High-level Protection, I: In-vehicle Mobile, K: Kiosk Mobile Terminal, F: Fully Rugged Portable, M: Military Use

2. CPU Platform Architecture or Performance: S: ARM Architecture CPU, A: Entry-level X86 CPU, K: Mid-to-High Performance X86 Core CPU

Product Series Names:

- Universal Type: ALAD and JAVS
- Industry-specific Types: WPFC (Waterproof Flat Panel Computer) and MBPC (Mobile Panel Computer)

| Expansion Port | 1*Mini PCIe(PCIe&USB signal), Supports functional modules with PCIe or USB signals; 1*M.2 B-Key Type 3042/3052 with SIM card slot, supports 4G LTE/5G NR; Optional 1 PCIeX4 slot (X4 signal) or 1 32-bit PCI slot expansion |
| Storage | 1*2.5" SATA HDD disk, supports SATA3.0 6Gbps HDD/SSD; 1*mSATA |
| Power Supply | DC-IN 9~36V wide voltage input, overvoltage and overcurrent reverse connection protection |

03- Product Highlights

| | | |
|--|--|---|
| 1 <i>Comprehensive CPU Performance Enhancement</i> | 2 <i>Ultra High- Performance Integrated Graphics</i> | 3 <i>Dual Independent Displays</i> |
| 4 <i>Expanded Network Capabilities</i> | 5 <i>(1+1) Storage</i> | 6 <i>With PCIe or PCI Expansion Support</i> |
| 7 <i>Full Mirror Panel</i> | 8 <i>Modular Structural Design</i> | 9 <i>Diverse Installation Options</i> |

★ Comprehensive CPU Performance Enhancement

11th Gen Intel Processor

Tiger lake-U ULT SOC
System-on-Chip (SOC), ultra-low power consumption, and fanless cooling.

Supporting Intel Deep Learning Boost
Theoretical inference capability of up to 8 TOPS
Features Intel GNA (High-Speed Neural Accelerator 2.0)
AI voice neural noise reduction functionality

Low-power Neural Network Acceleration

Ruijie Xe Integrated Graphics (INTEL DX1 GPU)

Core i3/Pentium/Celeron integrates the UHD Graphics, while Core i5/i7 integrates the Ruijie Xe Graphics, providing computing power of 3-4 TOPS, comparable to the performance of NV 1030/1050.

★ Dual Independent Display

23.8 inches TFT LCD Display

1920*1080@60Hz, Full HD

Second display is HDMI

1*HDMI(4K), maximum resolution 4096*2304@60Hz

M.2 Optional

1*M.2 B-Key Type
3042/3052 with SIM
card slot, supporting 4G
LTE/5G NR

Mini PCIe optional Wifi+ BT

1*Mini PCIe(PCle&USB signal),
supporting Wifi+BT wireless function

★ **Expanded Network Capabilities**

**1*2.5" SATA drive, SATA3.0 6Gbps
Hot-swappable design**

★+1 Storage

1*mSATA Slot

★ Optional PCIe or PCI Expansion

- ALAD-K2350T(P) can be expanded through sub-cards ECX-168 or ECI-169, using JHCTECH standard EI/O hybrid interface, achieving expansion of 1 PCIe x4 or 1 32-bit PCI.
- The PCIe x4 (gen4 bandwidth) slot comes with an auxiliary power port, supporting high-power devices such as POE+ network cards.

Optional PCIeX4 (gen4 X4 signal) or PCI expansion or COM3&4

| Board Name | Expansion Interface |
|----------------------------|--|
| ECX-168 Expansion Sub-Card | 1*PCleX4 slot(X4 signal) (It does not have COM3 & 4 in use.) |
| ECI-169 Expansion Sub-Card | 1*32-bit PCI slot (It does not have COM3 & 4 in use) |

- High-ratio touch panel, full mirror design ID.
- Touch LCD fully integrated for an immersive experience

★ Full Mirror Panel

- A die-cast mold forms a three-in-one main structure: front panel + main rear cover + expandable slot cover.
- Modular built-in components include TP & LCD module, MXM motherboard, PIB carrier board, HDD/SSD bracket, and PCIe/PCI expansion sub-cards.
- Fanless cooling design + mechanical design + ergonomic design, featuring high practicality, assembly, and maintenance.

★ Modular Structural Design

Diverse Installation Options

Supports panel installation, cabinet shelf installation, and VESA installation (desktop upright, wall-mounted, and cantilever)

Panel Installation

Desktop Installation

Wall Mounted

Cantilever Installation

ALAD-K2350T(P) Ordering Info

04-Ordering Info

| Model | CPU | Touchscreen | Specification Description |
|---------------------------------|--|----------------------------------|--|
| ALAD-K2350T(P)/ S001 | Intel® Core I3-1115G4 | Projected Capacitive Touchscreen | Industrial Panel PC, 23.8" TFT LCD, 4*COM, 4*USB3.2, 1*USB2.0, 2*LAN, 1*HDMI,1*Mini PCIe, 1*M.2 B-Key , 1*Line out, 1*2.5" SATA drive bay, 1*mSATA, 2*3W built-in speakers, DC 9~36V power supply. |
| ALAD-K2350T(P)/ S002 | Intel® Core I5-1135G7 | | |
| ALAD-K2350T(P)/ S003 | Intel® Core I7-1165G7 | | |
| ALAD-K2350T(P)/ S004 | Intel® Celeron 6305E | | |
| ECX-168 Expansion Daughter Card | 1*PCIeX4 slot(X4 signal) (It does not have COM3 & 4 in use) | | |
| ECI-169 Expansion Daughter Card | 1*32-bit PCI slot (It does not have COM3 & 4 in use) | | |
| PA-60DC12 | AC/DC power adapter, DC12V@5A ,60W | | |
| PA-120DC19 | AC/DC power adapter, DC19V@6.32A ,120W (When using a POE network card as an expansion) | | |

05-ALAD Series Upgrade

Platform Upgrade: Adopts the “Core Module + Carrier Board”

- Different architectures and platform CPUs are used to meet various performance requirements.
- This creates a series of product lines, making it extremely convenient for customers to iterate, upgrade, and maintain.

| Core Module | MXM-I914 | MXM-I719 |
|------------------------|--|---|
| CPU | Intel® Tigerlake U Celeron/Core I3/I5/I7 CPU | Intel® Elkhart lake : Celeron J6412 或 Celeron N6210 |
| Chipset | Intel® CPU SoC MCP | |
| RAM | 1*DDR4 3200MHz SODIMM, maximum support 32GB | |
| Dimension | 95*82mm | |
| Standard Specification | JHC MXMe | |

06-ALAD Series Market Direction

1、Machine Vision, Visual Guidance, and Measurement

Automatic Solar Cell String Welding Machine with Positioning and Detection System

2, Self-Service Terminals

Bank Self-Service Terminal

3. Logistics and Warehousing"

AGV Car, Material Management

4. Factory Information Automation MES

Application of MES System in Automotive Company Including Complete Vehicle and Engine Assembly, etc.

5. Environmental Data Acquisition Instrument

Online Smoke Gas Detection System

6. Machine Tool Motion Control and Human-Machine Interface (HMI)

Integrated Display and Control for Injection Molding Machine
Motion Control for Vulcanizing Machine
Control for High-Temperature Furnace

7. Smart Medical

Smart medicine cabinet system
Nurse mobile workstation
.....

Application of MES System in Factory Including Automation Production Lines, SMT Mounting, etc

07 ALAD-K2350T(P) Product Schedule

Sample Testing Period

December 2023

Small Batch Production Period

January 2024

02

Q&A

Q1:What are the functions of I-port and MIO for KMDA-7611?

A1:MIO can expand dual CAN with 1*DB9 port.I-port can expand 2*LAN or dual CAN with 1*DB9 port .
